RECORD NUMBER OF RESURFACED ROADS

As promised when we stood for election in 2014, many more roads across the ward have been resurfaced, this is in addition to those road improvements carried out in the previous eight years.

Cllr Mike Markham commented, "Ensuring residential roads are brought up to expected standards shows that Conservative Hillingdon is putting residents first but it also confirms that your ward councillors are able to influence the decision makers ensuring that Ruislip Manor benefits from this programme."

GRANTS BENEFIT LOCAL COMMUNITY

Recent awards of our ward budget have gone to the Scout & Guide Groups at Sacred Heart Church and to Lady Bankes school.

Cllr Susan O'Brien said, "Having been a Brownie leader, I recognise the importance of supporting local community groups and having spoken to the Head of Lady Bankes I know they are delighted with the funding that allowed them to buy new sports kits for their pupils."

SCHOOL PLACES FOR HILLINGDON CHILDREN

Many of our residents with young children have expressed their relief and thanked us for the number of available places at local primary schools for their children. Conservative Hillingdon Council has the largest Primary School expansion programme in London.

In Hillingdon we took pro-active steps to ensure there was a local school place available for our young people near their home, which is vitally important to many local families.

By undertaking the largest primary school expansion programme in London, and making additional places available, we have made sure that local children can go to local schools and get the best possible start to their education.

VICTORY IN KEEPING NU-WAYS CHEMIST OPEN

Following many months of lobbying by your ward councillors and having various discussions with appropriate parts of the health service, it has been confirmed that Nu-Ways chemist in New Pond Parade, West End Road, justifiably remains open. The chemist as a 'health supported pharmacy' provides residents with the benefit of many important health services.

Cllr Douglas Mills said, "Our representations for the need of Nu-Ways chemist to be supported by NHS England have been heard and as a result removes the concern that many residents would otherwise be more than a mile from their nearest chemist if Nu-Ways was to close."
