NEW OUTDOOR GYM COMING SOON

Following lobbying by your Conservative Team a new outdoor gym will be installed in Yiewsley Recreation Ground. Outdoor gyms are popular with all age groups and they help support healthy and active life-styles. The project is included in the 2018/2019 £1m Chrysalis programme with the funding approved and works expected to be completed by the end of this summer.

Cllr Shehryar Ahmad-Wallana, said, "This is yet more good news for Yiewsley residents and shows that your Conservative Council continues to put our residents first."

BETTER RECYCLING FACILITIES

To help Yiewsley residents and also to reduce fly-tipping in Yiewsley, your Conservative Council is to introduce two new services. A free collection service is now available to all residents for bulky items such as mattresses, furniture and large electrical items. Later in the year a new civic amenity site will be opened daily in the Yiewsley/West Drayton area.

Alan Deville, Conservative Team Member, said, "As a local resident I am really looking forward to these new services as it will make disposing of large items so much easier"

NEW CHILDRENS' PLAY GROUND

The design of the new children's play area for Stockley Country Park has been agreed and is to be installed in the coming weeks ready for Spring. It will be situated in the playing fields at the end of Chestnut Avenue and near the outdoor-gym. Many local residents had asked your Conservative Councillors for a children's' play area as there were no facilities nearby.

Cllr Shehryar Ahmad-Wallana, said, "All children should be able to enjoy our great parks and open spaces and this new and exciting play area should provide countless hours of fun for them."

BRIDGE IMPROVEMENTS UPDATE

Further improvement to the Yiewsley/West Drayton rail bridge will be shortly commence. A timeline mural showing key dates in the history of the area will be used to brighten the walkways and new lighting will be installed.

Simon Arnold, Conservative Team Member, said "This will give the area a considerable face lift, and shows our commitment to the improvement and regeneration of Yiewsley."
